SUBJECT { GENERAL KUGOWN
SPECIFIC Counter-measures to Guatemalan-Communist KUGOWN Activity

RYBAT/PBSUCCESS

RE: HULA 1039

1. Your suggestions in reference have been under consideration and have been worked on in a variety of ways for some time now. However, fresh looks at the problem are always welcome.

2. With regard to paragraph 1 b of reference, we believe that the elements of a PBSUCCESS positive program are contained in the CALLIGERIS platform. We agree with you that the KUGOWN effort made in developing the program has not been enough to undo all the effects of Communist KUGOWN activities; and we believe more should be done along this line, especially when official WSBURNT media are in friendly hands.

3. Support materials requested in paragraph 4 of reference will be collected and sent to you on a continuing basis. Materials already sent in KUGOWN support contain considerable quantities of useful information on these topics and it is assumed you still have this material at your disposal. In addition your clipping service and the flow of KIFORGET materials should keep you abreast of current materials on this subject.

4. The following attachments may serve to fulfill the requirement of paragraph 4 c, e, f of reference:
